

IBM 000-209

Exam Name: SVC/Virtullization V.1

Q & A : 158 Q&As

Pdf Demo

Quality and Value for the 000-209 Exam

[Just4Exams Practice Exams](#) for IBM IBM certifications III 000-209 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

100% Guarantee to Pass Your 000-209 Exam

If you do not pass the IBM certifications III 000-209 exam on your first attempt using our Just4Exams **000-209 testing engine and pdf study guide**, we will give you a FULL REFUND of your purchasing fee.

Downloadable, Interactive 000-209 Testing engines and PDF Version

Our Exam Preparation Material provides you everything you will need to take a [IBM certifications III certification](#) examination. Details are researched and produced by [IBM Certification](#) Experts who are constantly using industry experience to produce precise, and logical.

Exam : IBM 000-209

Title : SVC/Virtullization V.1

1. Which statement is true about VDIsks in the IBM SVC?

- A. A VDisk can be created on MDisks from multiple Managed Disk Groups (MDGs).
- B. To move a VDisk from one I/O Group to another I/O Group is non-disruptive.
- C. A VDisk can be migrated from Managed Disk Group (MDG) to MDG with the same extent size.
- D. A VDisk can be migrated from Managed Disk Group (MDG) to MDG with different extent sizes.

Answer: C

2. Which module is needed for collecting SVC performance data with TotalStorage Productivity Center (TPC)?

- A. TPC for Disk

- B. TPC for Data
- C. TPC for Fabric
- D. TPC for Performance

Answer: A

3. What is always the first step that should be taken before starting the software upgrade process on an SVC?

- A. check for degraded VDisks
- B. ask for a maintenance window
- C. set the config node to offline
- D. ensure that all hosts are online

Answer: A

4. What is the advantage of IBM SVC when compared to EMC Invista, HDS Universal Storage Platform-V and HP XP10000?

- A. lower entry price
- B. Metro Mirror functionality
- C. capacity support up to 2PB
- D. interoperability with Brocade SAN switches

Answer: A

5. What happens if an MDisk is deleted from an MDisk Group (MDG) using the rmmdisk -force command?_What happens if an MDisk is deleted from an MDisk Group (MDG) using the rmmdisk -force command?

- A. Any extents on the MDisk are deleted along with the MDisk.
- B. An error message is displayed that indicates an MDisk that contains extents cannot be deleted.
- C. Any extents on the MDisk are migrated off the MDisk (to other MDisks in the MDG) prior to its deletion.
- D. If there are any extents on the MDisk, the option is provided to migrate them to other MDisks before they are deleted.

Answer: C

6. If more than one error occurs during an operation, which SVC system error code is displayed on the front panel?

- A. the latest detected error
- B. the error with the lowest priority
- C. the error with the highest priority
- D. No error code is displayed. The "Check Log" is shown.

Answer: C

7. What is a best practice when implementing IBM SVC?

- A. The cluster should be in the same UPS power domain.
- B. The switches should be cascaded to become one fabric.
- C. The hosts and SVC nodes should be configured in one zone.
- D. The storage device and SVC nodes should be configured in one zone.

Answer: D

8. Which platform is NOT supported by IBM SVC?

- A. Windows
- B. HP-UX 10
- C. VMWare ESX
- D. Red Hat Linux Enterprise Server

Answer: B

9. A customer has implemented an IBM SVC solution.

Which migration option is available to the customer?

- A. migrate an image mode VDisk to a smaller VDisk
- B. migrate two VDisks to one VDisk with an appropriate extent size
- C. migrate a VDisk to multiple VDisks with appropriate extent sizes
- D. migrate a VDisk from disk subsystem A to subsystem B with appropriate extent sizes

Answer: D

10. Which error notification settings are valid?

- A. All, Critical Only, and None
- B. All, Hardware Only, and None
- C. Complete, Informational, and None
- D. All, Hardware Only, and Software Only

Answer: B

11. Which multipathing software option is NOT supported when running Solaris 10 on Sparc servers attached to SVC?

- A. SDD
- B. DMP
- C. DMMP
- D. MPxIO

Answer: C

12. Which two provide primary power redundancy for the IBM SVC? (Choose two.)

- A. the redundant power supplies of the nodes
- B. the customer's existing power infrastructure
- C. one external UPS included with the SVC hardware
- D. two external UPSs included with the SVC hardware

Answer: AC

13. A customer purchased an IBM SVC solution from a Business Partner.

In physical installation processes, which action can be the last step to complete?

- A. provide power, LAN, and SAN connectivity
- B. complete the customer training for SVC administrators
- C. upgrade host, SAN, and disk server code to SVC supported levels
- D. conduct a pre-install Solution Assurance Review (SAR) with Business Partner, IBM, and customer

Answer: B

14. How many FlashCopy targets per source are supported in SVC 4.2.1?

- A. 2
- B. 8
- C. 16
- D. 32

Answer: C

15. A customer wants to put an IBM SVC in front of their EMC Symmetrix.

Which multi-path driver is required?

- A. SDD
- B. RDAC
- C. PVLinks
- D. PowerPath

Answer: A

16. When installing an IBM SVC, what is the best way to ensure data availability?

- A. use VSANs to balance the I/O load
- B. use switch zoning to balance the I/O load
- C. use one storage subsystem per MDisk group
- D. use the 4Gb data rate on the Fibre Channel for I/O

Answer: C

17. What is the maximum number of IBM SVC nodes supported in a cluster?

- A. 4
- B. 8
- C. 12
- D. 16

Answer: B

18. What should be considered when designing an IBM SVC solution for a customer who needs disaster recovery?

- A. number of HBAs and distance between sites
- B. number of HBAs and copy services software
- C. distance between sites and copy services software
- D. distance between sites and 10Gb Ethernet connections

Answer: C

19. Which statement is true about the latest software for the SVC?

- A. You must order the software from IBM.
- B. It can be found on the SVC Master Console.
- C. Software is automatically downloaded to the SVC.
- D. It can be found on the website <http://www.ibm.com/storage/support/2145>.

Answer: D

20. Which CLI command generates a list of only unfixed errors in the system, when performing maintenance on an SVC system?

- A. svctask finderr
- B. svctask settrace
- C. svctask chcluster
- D. svctask dumperlog

Answer: A
