- D. use the Help menu Cheat Sheets

Answer: D

6. When using the Create JavaBeans Web Pages Wizard, which of the following elements can be created?

- A. Business Delegate
- B. Controller Servlet
- C. JavaBean Broker
- D. View Bean

Answer: BD

7. A developer wants to populate a Web project from a Web site which resides on a remote server and contains servlets. The BEST way to import the site is to use:

- A. The HTTP import utility
- B. The File system import utility
- C. The JAR import utility
- D. The FTP import utility

Answer: D

8. A servlet class named `com.ibm.certify.LoginServlet` needs to be defined in the `web.xml` deployment descriptor. The developer is using the `web.xml` editor to create the definition. Which of the following actions is considered the BEST practice?

- A. In the Servlets tab, add a corresponding JSP for the resulting servlet with URL mapping - login
- B. In the Servlets tab, add the servlet with URL mapping - login
- C. In the Servlets tab, add the servlet with no URL mapping, accepting the default
- D. In the Pages tab, add `com.ibm.certify.LoginServlet` to the Welcome files list
- E. In the Pages tab, add an authentication method for `com.ibm.certify.LoginServlet`

Answer: B

9. Files that are to be deployed in a WAR as part of a Web Project named 'Sales' should be located under what directory?

- A. Sales/Web Content
- B. Sales/WEB-INF
- C. Sales/source
- D. Sales/Libraries

Answer: A

10. Which of the following views are part of the default Java perspective?

- A. Package Explorer
- B. Navigator
- C. Outline
- D. Hierarchy
- E. Properties

Answer: ACD

11. While a developer is creating an Enterprise Application Project using the wizard, which other J2EE component can be created simultaneously?

- A. DataSource Project
- B. Web Project
- C. Java Project
- D. Server Project

Answer: B

12. When using the Create Database Web Pages Wizard to create web pages, which of the following information can be specified?

- A. A model that indicates the input and view pages generated
- B. The XML and XSL to generate the SQL for the desired statement
- C. The type of SQL statement to use
- D. Mapping between Java data types and Database data types

Answer: AC

13. A developer wants to import a project that was previously created in another workspace. The BEST way to accomplish that is to select which File -> Import option?

- A. File system
- B. Existing Project into Workspace
- C. Zip file
- D. External Plug-ins and Fragments

Answer: B
