Exam : Novell 050-677

Title : Foundations of Novell Networking:Netware 6

1. Which are characteristics of a controlled access printer? (Choose 2.)

- A. It has low security.
- B. It provides plug-and print capabilities.
- C. It allows for little administrative configuration.
- D. It is created and administered as an eDirectory object.
- E. It offers a full range of event and status notification options.

Answer: DE

2. When starting up the server, which file is used to obtain the server name and time zone information?

- A. SERVER.EXE
- B. NETINFO.CFG
- C. INETCFG.NLM
- D. STARTUP.NCF
- E. AUTOEXEC.NCF

Answer: E

3. Click the Exhibit Button to Begin. The Exhibit contains the Novell Client for Windows 2000 property page. Which tab allows you to control the configuration setting of Network Neighborhood to hide the server page?

- A. Client
- B. Advanced Login
- C. Default Capture
- D. Location Profiles
- E. Advanced Menu Settings

Answer: E

4. In an NDPS printing environment, which utility do you use to configure event notification?

- A. iMonitor
- B. iManager
- C. ConsoleOne
- D. Remote Manager
- E. NetWare Administrator

Answer: E

5. Someone is trying to access your network by logging in as Admin. Which is the simplest and most effective method for preventing this type of security breach?

- A. Hide the Admin object.
- B. Rename the Admin object.
- C. Use an IRF to prohibit global access.
- D. Place an intruder detection limit on the Admin account.
- E. Make another user security equivalent to the Admin object.

Answer: B

6. Which objects can be children of the tree object? (Choose 2.)

- A. Admin
- B. Country
- C. Organization
- D. License Container
- E. Organizational unit

Answer: BC

7. Which utility's only function is to set directory and file attributes?

- A. Flag
- B. Filer
- C. NDIR
- D. NCOPY

Answer: A

8. How are file system effective rights calculated?

- A. All rights granted to the user explicitly and through other objects, minus IRFs
- B. Between explicit assignments and assignments through other objects the most restrictive rights are applied, minus IRFs
- C. Between explicit assignments and assignments through other objects the least restrictive rights are applied, minus IRFs
- D. The least restrictive rights granted to the user through eDirectory and the most restrictive granted to the user through the file system, minus IRFs

Answer: A

9. The R Hernandez user object exists in the DEL.DIGITALAIR container. Which is an example of a typeless distinguished name for Hernandez?

- A. RHERNANDEZ.

- B. CN=RHERNANDEZ
- C. RHERNANDEZ.DIGITALAIR
- D. .RHERNANDEZ.DEL.DIGITALAIR
- E. .CN=RHERNANDEZ.OU=DEL.O=DIGITALAIR

Answer: D

10. When configuring a map to support location-based printing, what is the name of the file that contains the iPrint Map Designer tool?

- A. MAPTOOL.HTM
- B. PRINTMAP.HTM
- C. DESIGNMAP.HTM
- D. CONFIGMAP.HTM
- E. DESIGNTOOL.HTM

Answer: A

11. What is used to load the print service manager?

- A. iManager
- B. ConsoleOne
- C. NDPS Broker
- D. Server console prompt

Answer: D

12. You are using the default configuration on your server. To access Web Manager from your workstation, you open a browser, enter the server's IP address, and then enter which port number?

- A. 443
- B. 636
- C. 2200
- D. 8008
- E. 8009

Answer: C

13. Which email program only offers a client side (front-end) application?

- A. Lotus
- B. Eudora
- C. Exchange
- D. GroupWise

Answer: B

14. Which MAP command creates a search drive in the last possible search position?

- A. MAP L16:=.volume.ou.organization:path
- B. MAP S16:=.volume.ou.organization:path
- C. MAP S16:=.path:volume.ou.organization
- D. MAP S26:=.volume.ou.organization:path
- E. MAP S26:=.path:volume.ou.organization

Answer: B

15. User KTracy has unauthorized access to the IS.SLC.DIGITALAIR container. What should you check to determine where the excessive rights are originating? (Choose 2.)

- A. Whether KTracy has any security equivalences set
- B. Whether SLC.DIGITALAIR has a trustee assignment to the KTracy object
- C. Whether KTracy has a trustee assignment to the SLC.DIGITALAIR container
- D. Whether KTracy has a trustee assignment to the DA1.IS.SLC.DIGITALAIR server
- E. Whether KTracy has a trustee assignment to the LON.DIGITALAIR container object

Answer: AC

16. Which is the top-most object in the eDirectory tree?

- A. Tree object
- B. Domain object
- C. Country object
- D. Organization object

Answer: A

17. Which statements are true regarding setting identifier variables in login scripts? (Choose 2.)

- A. They must be written in initial caps.
- B. They must be written in lower case.
- C. They must be written in upper case.
- D. They must be preceded by the pound (#) sign.
- E. They must be preceded by the percent (%) sign.
- F. They must be preceded by the underscore (\_) sign.

Answer: CE

18. Which statements regarding login scripts are true? (Choose 2.)

- A. The default login script can be edited.
- B. Only one profile login script per user is allowed.
- C. It is recommended to use user login scripts rather than container login scripts.
- D. If the user login script is executed, the default login script is never executed.
- E. Even if a user's parent container does not have a login script, a different container login script can be executed for that user.

Answer: BD

19. In an NDPS environment, which type of notification needs to be configured for a printer operator to be notified when intervention is required?

- A. Popup
- B. Log-file
- C. Job-owner
- D. Programmatic
- E. Interested-party

Answer: E

20. Which statements are true regarding the Public trustee? (Choose 2.)

- A. The Public trustee is the tree object.
- B. By default, all eDirectory objects are security equivalent to Public.
- C. By default, Public allows users to view any other object in the tree before authenticating.
- D. By default, users must be authenticated before receiving rights through the Public trustee.
- E. Any rights assigned by the tree object take precedence to rights assigned by the Public trustee.

Answer: BC
