Exam : NOVELL 050-692

Title : Novell Zenworks 6.5 Desktop Management

1. What must be installed and configured on the server along with the Middle Tier Server in order for it to function? (Choose 2.)

- A. MySQL
- B. Rsync
- C. iSCSI
- D. iManager
- E. NetStorage
- F. A web server
- G. Workstation Imaging

H. Workstation Inventory

Answer: EF

2. You're configuring a container login script in your eDirectory tree to automatically distribute the ZPMS Update Agent to your users' workstations. You've copied the Update Agent files from the Update Server to the Sys:Public directory on your DA1 NetWare 5 server. Which file should you call from within your login script to install the Update Agent?

- A. Setup.bat
- B. NetInstall.bat
- C. ZPMSAgent.msi
- D. UpdateAgent.bat
- E. ZPMSUpdateAgent.exe
- F. ZENUpdateAgentInstall.bat

Answer: B

3. Which type of ZENworks Personality Migration saves the personality in a file which can be then transferred to a different computer?

- A. Imaged migration
- B. Hosted migration
- C. Stored migration
- D. Delayed migration
- E. Deferred migration
- F. Real-time migration
- G. Suspended migration

Answer: E

4. To configure user-defined policies using the ADM files for workstation objects, which policy do you configure?

- A. iPrint
- B. Remote control
- C. Computer extensible
- D. Workstation imaging
- E. ZENworks Desktop Management agent

Answer: C

5. User MHoffmann.LEADS.SALES.SLC.DA is a member of the ProjectLeads.DA group. You have associated a user policy package with the DA container that configures user desktops to use the Corplogo.bmp background. You've also associated a user policy package with the SALES.SLC.DA container that configures user desktops to use the Corplogo2.bmp background. You've also associated a user policy package with ProjectLeads.DA that configures user desktops to use the Corplogo3.bmp background. When MHoffmann logs in, which background will be applied to her workstation?

- A. Corplogo.bmp
- B. Corplogo2.bmp
- C. Corplogo3.bmp
- D. The container and group associations are in conflict and, therefore, no background will be applied.

Answer: C

6. Which objects can you associate with a workstation package? (Choose 3.)

- A. User
- B. Group
- C. Alias
- D. Server
- E. Printer
- F. Profile
- G. Container
- H. Workstation
- I. Workstation Group

Answer: GHI
