Exam : Lotus 190-959

Title : IBM Websphere Portal 6.1 Application Development

1. What content is displayed when accessing TestPortlet in the VIEW mode?

```
public class TestPortlet extends javax.portlet.GenericPortlet {
public void doView(RenderRequest request, RenderResponse response) throws PortletException, IOException {
response.setContentType(request.getResponseContentType());
response.getWriter().println("Executing CertTrialPortlet.doView()");
}
@RenderMode(name="view")
public void handleView(RenderRequest request, RenderResponse response)throws PortletException, IOException{
response.setContentType("text/html");
```

```
response.getWriter().println("Executing CertTrialPortlet.handleView()");
}
}
```

A.Executing CertTrialPortlet.doView()

B.Executing CertTrialPortlet.handleView()

C.IllegalStateException because you cannot have both @RenderMode=view and doView() in same portlet

D.Compiler error indicating that you cannot have both @RenderMode=view and doView() in TestPortlet class. WHelveticaArialZ

Answer: B

2. An insurance company would like to target specific content to users who live in the northeast and own auto insurance. These attribute values can be accessed from the users profile. What type of portal personalization can be used to identify this user segment and target specific content to them?

A.Rules Engine

B.Simple Filtering

C.Attribute Filtering

D.Collaborative FilteringWHelveticaArialZ

Answer: A

3. Cheng is developing a portlet which is not compatible with the Client Side Aggregation mode. What is the best means to indicate that this portlet only supports Server Side Aggregation mode?

A.Set the com.ibm.wps.web2.renderMode context parameter in the portlet.xml

B.Set the com.ibm.wps.web2.renderMode init parameter in the portlet.xml

C.Set the com.ibm.wps.web2.renderMode portlet preference in the portlet.xml

D.Set the com.ibm.wps.web2.renderMode context parameter in the web.xmlWHelveticaArialZ

Answer: B

4. Whats is a processing advantage of public parameters over eventing?

A.No action phase required.

B.No limits to the payload data.

C.No need to distribute events to portlets.

D.Notifications are handled by the browser.WHelveticaArialZ

Answer: A

5. A new site needs to be created within portal with its own title, user repository, default content, and branding. What single portlet is provided for creating a new site within portal?

A.Content Authoring Portlet

B.Theme Customizer Portlet

C.Virtual Portal Manager Portlet

D.New Site Creation Wizard Portlet WHelveticaArialZ

Answer: D

6. Evan is developing a Composite Application and some portlets come from a third party vendor. What would be the best means to force Server Side Aggregation mode for the page in the Composite Application?

A.Add the portlet UID found in the web.xml to the Portlet Blacklist.

B.Define a Composite Application policies to force Sever Side Aggregation

C.Add the RenderMode page parameter to force Server Side Aggregation.

D.Add custom logic in the theme to trigger the isSSA and isCSA page variables.WHelveticaArialZ

Answer: C

7. Evan is developing a WSRP 2.0 Compliant portlet and he wants to send a custom java object Sample as an event to the WSRP 2.0 Compliant remote portlet. What changes should he make to the Sample class

```
public class Sample{
private String hello;
public String getHello(){
return hello;
}
public void setHello(String hello){
this.hello = hello;
}
}
```

A.He should mark Sample class as Serializable

- B.He should mark Sample class as Serializable as well as JAXB Serializable by adding @XmlElement annotation
- C.He should mark Sample class as Serializable as well as JAXB Serializable by adding @XmlSerializable annotation
- D.You cannot pass complex objects to the remote portlet. WHelveticaArialZ

Answer: B

8. Jerome is attempting to use Rational Application Developer to debug a portal application on a remote server but the connection is consistently failing. What configuration option is available in Rational Application Developer to potentially fix this problem?

- A.Enable caching under Window -> Preferences -> Internet -> Cache.
- B.Right-click on the server in the Servers view and select Restart -> Debug.
- C.Increase the Debugger Timeout setting under Window -> Preferences -> Java -> Debug.
- D.Select Skip breakpoints during a Run to Line operation under Window -> Java -> Run/Debug.WHelveticaArialZ

Answer: C

9. Which portlet framework is designed to understand two-phase request processing?

- A.Faces Portlet Framework
- B.Struts Portlet Framework
- C.Spring Portlet Framework
- D.JSR 268 Portlet FrameworkWHelveticaArialZ

Answer: C

10. What two portlet frameworks are built upon the Model View Controller pattern?

- A.Basic Portlet and IBM Portlet Frameworks
- B.Faces Portlet and Struts Portlet Frameworks
- C.JSR 168 Portlet and IBM Portlet Frameworks
- D.JSR 168 Portlet and JSR 268 Portlet FrameworksWHelveticaArialZ

Answer: B

11. The following code demonstrates an example for theme extensions

Which one of the following is TRUE about the code?

- A.This code can be included in portlet or theme jsp.
- B.This code can be included only in the theme or skin jsps.
- C.Extension Point com.ibm.portal.theme.plugin.SimpleLinks is not defined in plugin.xml
- D.This code displays the title of all the extensions of type SimpleLinksWHelveticaArialZ

Answer: B

12. The Web 2.0 theme with support for client-side aggregation is based on the differential page rendering (DPR) model. What key performance feature is provided by DPR?

- A.Caching of portlet content.
- B.Automatically converts server side portlets to client side portlets.
- C.Only refreshes portions of the page that were affected by user interaction.
- D.Allows faster performing portlets to render prior to slower running portlets.WHelveticaArialZX

Answer: C

13. What additional step is necessary when deploying the Remote Rendering Portlet to a page that uses the client-side aggregation mode?

- A.No additional steps are necessary.
- B.Remove the Remote Rendering Portlet from the blacklist.
- C.Create an HTTP proxy for AJAX to allow the portlet to render content
- D.This is not possible as the Remote Rendering Portlet is not compatible with Portal Web 2.0 theme.WHelveticaArialZ

Answer: C

14. Don needs to parse an ATOM feed return from a REST based service. Which of the following frameworks is a supported solution for parsing ATOM feeds using Java and AJAX?

- A.The DOJO Toolkit 1.1
- B.WebSphere Feature Pack for Web 2.0
- C.WebSphere Feature Pack for Web Services
- D.Java Architecture for XML Bindings (JAXB) WHelveticaArialZ

Answer: B

15. How can a non-J2EE web application located on a separate domain from portal be integrated into portal without programming and provide bookmarkability?

- A. Configure non-J2EE application to display within RSS Portlet
- B. Configure non-J2EE application to display within iFrame Portlet
- C. Configure non-J2EE application to display within Web Content Viewer Portlet
- D. Configure non-J2EE application to display within WebSphere Application Integrator Portlet

Answer: D

16. What WebSphere Portal V6.1 installation option is best suited for an optimized development environment?

- A. Debug Installation Option
- B. Performance Installation Option
- C. Development Installation Option
- D. Administration Installation Option

Answer: D

17. The marketing department wants to create a new promotion portal page to attract return customers. The page can only be included in the portal navigation by customers who have made a purchase in the last 30 days. Which of the following options will permit the new page to be displayed to only customers who made a purchase in the last 30 days?

- A. Using the Manage Pages portlet, edit the page parameter to reference an application visibility policy. Create a new policy that uses the recentPurchaseDate user attribute to set the page visible if the date is less than 31 day old.
- B. Create a visibility rule that uses the recentPurchaseDate user attribute to return true if the date is less than 31 days old. Then use the Edit Page Properties portlet to select the rule.
- C. Create a visibility policy that uses the recentPurchaseDate user attribute to return true if the date is less than 31 days old. Then use the Edit Page Properties portlet to select the policy.
- D. Using the Resource Policy portlet, select page resources, and select the new promotion page assign access option. Next select the users role. Add a visibility rule that uses the recentPurchaseDate user attribute to return true if the date is less than 31 days old.

Answer: B

18. Unlike server-side aggregation portal pages using client-side aggregation log errors to the client. When using client-side aggregation how can errors logged to the client be viewed from the server?

- A. They can't be viewed on the server.
- B. Add isDebug:true to debugOptions.jspf, load a page using client-side aggregation, add javascript:toggleDebugForm() to browser address bar
- C. Add isDebug:true to Default.jsp, load a page using client-side aggregation, add javascript:toggleDebugForm() to browser address bar
- D. Add isDebug:true to headExtras.jspf, load a page using client-side aggregation, add javascript:toggleDebugConsole() to browser address bar

Answer: D

19. Aside from normal steps for deploying portlets to a page what additional step, if any, is necessary to configure a portlet using the Struts MVC Framework and a portlet using the Java Server Faces Framework to the same portal page?

- A. Server side aggregation must be forced on page
- B. Both portlets must comply with the JSR168 Portlet Specification
- C. No additional steps are required
- D. Framework Jars must be added to WebSphere Application Server Shared Libraries

Answer: C

20. A customer has requirements to remotely search portal user profiles based on attributes of the profile using web services. How can this be accomplished in portal?

- A. By means of the Remote Portal Search Service
- B. By means of the Remote PUMA SPI REST Service
- C. By means of the Remote Virtual Member Manager Service
- D. By means of the user repository APIs and wrap web services around API calls

Answer: B
