Exam : Cisco 646-588

Title : Cisco(r) Advanced Wrieless LAN for Account Managers

1. When attending a meeting with the CTO of a manufacturing firm, it becomes clear that adding the resources of an ecosystem partner would help build a solution that would help close the deal. Which two Ecosystem partner technologies would you reccommend to the CTO at this manufacturing company?

- A. Handheld scanning devices
- B. Passive RFID
- C. Active RFID Tags
- D. Global Positioning Services (GPS)
- E. Network Management Services

Answer: AC

2. Which of the following situations is an example of location-based services being used in a wireless network?

- A. A university can provide secure access to visitors regardless of where they move about on campus.
- B. A healthcare organization complies with the Health Insurance Portability and Accountability Act (HIPAA).
- C. A financial services firm can determine whether a server is in or out of use at any point in time.
- D. A retail store improves communications among its employees regardless of their location on the sales floor.

Answer: C

3. Which appliance would be the best solution to manage more than 50 lightweight access points for a large enterprise facility?

- A. CiscoWorks WLSE
- B. Cisco 2000 Series wireless LAN controller
- C. Cisco 4100 Series wireless LAN controller
- D. Cisco 4400 Series wireless LAN controller

Answer: D

4. Which three of the following value propositions are most suited to wireless LAN enterprise solutions? (Choose three.)

- A. creation of a collaborative work environment
- B. security of a unified LAN solution
- C. minimal capital expenditure
- D. time savings offered by mobility-services solutions
- E. satisfaction of a single-vendor LAN solution
- F. minimal time to deployment

Answer: ABD

5. Your customer says, "Mobility services are not a budget priority. If we need mobility services later, we can always expand our network then." Which of the following statements would be your best response?

- A. A pervasive deployment of the Cisco Unified Wireless Network solution with integrated security services delivers the required level of security that allows you to proactively secure your business.
- B. Seizing this opportunity before the competition will allow you to be more proactive and set the business pace.
- C. It will be difficult to react quickly when a competitor deploys mobility services. If you wait, you will need to upgrade your network and deploy the service at the same time.
- D. The costs of a wireless network are very likely to rise in the future. Customers are much better off in the long term to invest in a WLAN today.

Answer: C
