

## [HP HP0-244](#)

**Exam Name:** *Advanced Backup Troubleshooting & Tuning*

**Q & A :** 64 Q&As

***Pdf Demo***

### **Quality and Value for the HP0-244 Exam**

[Just4Exams Practice Exams](#) for HP Certification I HP0-244 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

### **100% Guarantee to Pass Your HP0-244 Exam**

If you do not pass the Certification I HP0-244 exam on your first attempt using our Just4Exams **HP0-244 testing engine and pdf study guide**, we will give you a FULL REFUND of your purchasing fee.

### **Downloadable, Interactive HP0-244 Testing engines and PDF Version**

Our Exam Preparation Material provides you everything you will need to take a [Certification I certification](#) examination. Details are researched and produced by [HP Certification](#) Experts who are constantly using industry experience to produce precise, and logical.

Exam : HP HP0-244

Title : Advanced Backup Troubleshooting & Tuning

1. Which service should be disabled on Windows systems at operating system level to improve backup performance?

- A. Logical Disk Manager
- B. Removable Tape Service
- C. Removable Storage Manager
- D. Tape Storage Provider

Answer: C

2. What happens if you connect an HVD (High Voltage Differential) HBA (host bus adapter) to an LVD (Low Voltage Differential) tape device?

- A. The devices function correctly if you setup unique SCSI IDs and have proper termination.
- B. The devices do not function together and you may damage them.
- C. The devices function correctly after setting up the compatibility mode for the HBA.
- D. The devices do not function together unless you use active termination.

Answer: B

3. Which HP StorageWorks tape drive is the most appropriate choice for enterprise businesses with 150 GB of data to backup?

- A. DAT 24
- B. DAT 72
- C. DLT VS 80
- D. Ultrium 460

Answer: D

4. Click the Exhibit button.

Which library and tape drive firmware must be used for an ESL9322 with Ultrium 460 tape drives and Data Protector?

- A. Robot firmware 3.40, tape drive firmware F43W
- B. Robot firmware 3.48, tape drive firmware F43W
- C. Robot firmware 3.48, tape drive firmware F3CW
- D. Robot firmware 3.40, tape drive firmware F3CW

Answer: B

5. What is an advantage of the Cartridge Memory (a memory chip located in the cartridge) of the LTO Ultrium technology (LTO-CM) over previous tape technologies?

- A. It eliminates the need for barcodes and barcode readers in tape libraries.
- B. Data such as tape identity, type, usage and tape contents is read from a chip rather than the system area on tape, which reduces the wear and tear of that particular section.
- C. It contains troubleshooting information from the tape drive which can help to reduce overall repair times.
- D. The Ultrium drive reads data for firmware upgrades from a chip rather than a tape which increases the speed of the upgrade procedure.

Answer: B

6. Click the Exhibit button.

A customer installed Virtual Replicator on a Windows 2000 host. Which backup applications are supported for backing up the Virtual Replicator disks? Select TWO.

- A. HP Data Protector
- B. Legato Networker
- C. Tivoli Storage Manager
- D. CommVault Galaxy
- E. CA BrightStor EB

Answer: BC

7. Which tool, available at the HP web site, can size and configure the ideal backup solution for DAS, NAS and SAN environments using information you specify?

- A. HP OpenView Data Protector configuration scripiter
- B. Backup Sizing Tool
- C. Enterprise Backup Solution Configuration Matrix
- D. HP StorageWorks Library and Tape Tools

Answer: B

8. HP Ultrium tape drives use the ATS (Adaptive Tape Speed) feature. The main purpose of ATS is to increase \_\_\_\_.

- A. buffer capacity by varying the speed of the tape
- B. tape write speed by adjusting the host transfer rate
- C. overall performance by reducing the number of repositions
- D. tape read speed by adjusting the host transfer rate

Answer: C

9. A medium business with small workgroups and remote offices needs to backup about 40 GB of data. Which HP StorageWorks tape drive is the most appropriate?

- A. DAT 24
- B. DAT 72
- C. Ultrium 460
- D. SDLT 320

Answer: B

10. Disk and tape speed are key factors of a fast backup. Which issue may cause slow backup performance on Veritas Netbackup if you are doing LAN-based backup?

- A. Single mode cables are used instead of multimode cables.
- B. There are DNS resolution delays and wrong entries in the HOSTS file.
- C. Fibre Channel switch cannot be reached over LAN.
- D. Primary and secondary devices are connected to the same switch.

Answer: B

11. SCSI bus termination is \_\_\_\_.

- A. optional
- B. required and there must be one terminator for each device on the bus
- C. required and there must be two terminators, one on each end of the bus
- D. required and done automatically by all SCSI devices

Answer: C

12. The DLT tape backward read compatibility of HP SuperDLT drives is possible due to the \_\_\_\_.

- A. Magneto-Resistive Cluster (MRC) technology
- B. additional magnetic read-head
- C. Pivoting Optical Servo (POS) technology
- D. low-dens mode switch

Answer: B

13. What is the maximum cable length of an LVD SCSI bus?

- A. 7 m
- B. 12 m
- C. 20,5 m
- D. 25 m

Answer: B

14. Which file types should NOT be selected for backup in compressed mode? Select THREE.

- A. Exchange Server stores
- B. MPEG files
- C. Powerpoint presentations
- D. JPEG files
- E. ASCII (.TXT) files
- F. Post script (.PRN) files

Answer: ABD

15. Click the Exhibit button.

A customer has one single ESL9326D/DX with 4 DLT8000 drives. Which tape drive is supported for the next drives being installed in this library?

- A. DLT 8000 drives only
- B. SDLT220 or SDLT320
- C. DLT8000, SDLT220 or SDLT320
- D. SDLT220, SDLT320 or Ultrium230

Answer: C
