

## [HP HP0-380](#)

**Exam Name:** *Planning & Design of HP Integrity Entry-Level Svr Solutions*

**Q & A :** 123 Q&As

***Pdf Demo***

### **Quality and Value for the HP0-380 Exam**

[Just4Exams Practice Exams](#) for HP Certification I HP0-380 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

### **100% Guarantee to Pass Your HP0-380 Exam**

If you do not pass the Certification I HP0-380 exam on your first attempt using our Just4Exams **HP0-380 testing engine and pdf study guide**, we will give you a FULL REFUND of your purchasing fee.

### **Downloadable, Interactive HP0-380 Testing engines and PDF Version**

Our Exam Preparation Material provides you everything you will need to take a [Certification I certification](#) examination. Details are researched and produced by [HP Certification](#) Experts who are constantly using industry experience to produce precise, and logical.

Exam : HP HP0-380

Title : HP(r) Planning & Design of HP Integrity Entry-Level Svr Solutions

1. Your customer wants to simultaneously operate an HP-UX SAP application and a Red Hat Linux Oracle application on a single server. Which HP server provides this capability?

- A. rx16xx
- B. rx26xx
- C. rx46xx
- D. rx76xx

Answer: D

2. Which memory type is supported on Integrity systems?

- A.ECC EDO RAM
- B.RAMBUS
- C.NON-ECC EDO RAM
- D.ECC SDRAM

Answer: D

3. A company is considering implementing rx4640 Integrity servers within their environment. They will be running Oracle Database 10g Standard Edition for transaction processing on Red Hat Enterprise Linux AS 3.

Where can the customer obtain related benchmark information on the rx4640?

- A.www.tpc.org
- B.www.tpcresults.org
- C.www.benchmarks.com
- D.www.hpbenchmark.com

Answer: A

4. Your customer does not want to run any proprietary operating systems and is requesting open source compliance. Which operating system should you recommend?

- A.OpenVMS
- B.Windows
- C.Linux
- D.HP-UX

Answer: C

5. Instant Capacity (iCAP) has many features. Select TWO.

- A.Permanent capacity can be activated when needed.
- B.New temporary CPU capacity can be activated/deactivated as required.
- C.The lease is based on the percentage of CPU utilization.
- D.It works with memory, not with processors.
- E.It is supported only on the entry-level Itanium servers.

Answer: AB

6. You are designing an Integrity consolidation project for a customer who is currently running HP-UX v10.0 with Serviceguard on a PA-RISC based system. What is the minimum operating system version required to port/migrate the customer's applications?

- A.HP-UX 10.0 v2
- B.HP-UX 11.0
- C.HP-UX 11i v2
- D.HP-UX 11i v3

Answer: C

7. Which benefits does the HP Care Pack service provide to your customer? Select TWO.

- A.minimized downtime
- B.best-effort response for replacement of defective components
- C.committed response time
- D.HP warranty service consultation

Answer: AC

8. A large automotive manufacturing company asks for an HP Integrity server solution to replace their current IA32-based solution. They currently employ OpenView Storage Mirroring for data replication between their two production sites. They want to determine whether a Continuous Access solution would be a good substitute for the current Storage Mirroring technology.

You need to help the customer decide what kind of disaster recovery solution is needed. What will justify a Continuous Access solution?

- A.Data replication must be instantaneous and synchronous.
- B.Data replication must be possible across the continent.
- C.Data must remain at one location, should the other location fail.
- D.Data must remain consistent at both locations, should one site fail.

Answer: A

9. What is an advantage of the Itanium CPUs that are used in Integrity servers?

- A.parallel execution of instructions
- B.native support for fast 32-bit code execution
- C.integrated PCI Northbridge chip for I/O speed
- D.dedicated, direct-attached SDRAM to each CPU for speed

Answer: A

10. You need to prepare an EFI system partition (ESP) on an HP Integrity server running Microsoft Windows Server 2003 Enterprise Edition. What is the minimum size of a partition that can be used for installation?

- A. 10MB
- B. 100MB
- C. 500MB
- D. 1GB

M to each CPU for speed

Answer: B

11. Which resource tool offers a configuration worksheet for an rx4640?

- A. QuickFind
- B. SalesBuilder for Windows
- C. Cybrary
- D. Product Bulletin

Answer: B

12. What is one advantage of IA64 architecture-based Integrity servers compared to IA32 Extended Memory 64 Technology (EM64T) architecture-based servers?

- A. Applications can address up to twice the memory.
- B. Memory is bound to one processor, so access times are very fast.
- C. Performance is not negatively impacted when using more than 4GB of memory.
- D. Power consumption of the memory is much lower due to the power control chipsets.

Answer: C

13. What is one advantage of running database applications on IA64-based systems compared to IA32-based systems?

- A. It can use up to four times the memory of 32-bit systems.
- B. It can directly access more than 4GB of memory.
- C. It can address up to double the memory of 32-bit systems.
- D. It has quicker access up to 4GB of memory.

Answer: B

14. Which processor architecture is used in Integrity servers?

- A. ARM
- B. RISC
- C. CISC
- D. EPIC

Answer: D

15. A customer wants to operate an HP-UX application and a Windows application simultaneously on a single server. Which server is the least expensive you can recommend?

- A. rx16xx
- B. rx26xx
- C. rx46xx
- D. rx76xx

Answer: D

16. IA64 processor architecture is found in which servers?

- A. HP Integrity servers only
- B. HP Integrity, HP Alpha and HP ProLiant servers
- C. HP Integrity, HP NonStop and HP ProLiant servers
- D. HP Integrity and other vendors' Itanium servers

Answer: D

17. Which supported operating systems offer environments such as Foundation Operating Environment (FOE), Enterprise Operating Environment (EOE), and Mission Critical Operating Environment (MCOE)? Select TWO.

- A. HP-UX 11i v2
- B. Windows Server 2003 EE
- C. OpenVMS I64 8.2
- D. Red Hat Enterprise Linux AS v2.1

E.Red Hat Enterprise Linux AS v3.0

> D.www.hpbenchmark.com

Answer: AC

18. You are going to add two more rx4640 servers to an existing HP rack. Which statement is true regarding the environment?

- A.It is not necessary to validate that there is adequate power and cooling available in the computer room.
- B.Power and environmental consumption are not concerns because the customer's UPS and air conditioning seems to be oversized.
- C.Power and cooling requirements must be given to the customer so that he can identify any environmental considerations.
- D.You need to validate only that there is enough space left in the computer rack.

Answer: C

19. Which supported operating system uses the Special Administrator Console (SAC)?

- A.HP-UX v11.i v2
- B.Microsoft Windows Server 2003 EE
- C.OpenVMS v8.2
- D.Red Hat Linux Advanced Server v3.0

Answer: B

20. Your customer wants a secure operating system with at least a C2 rating. Which operating system should you recommend?

- A.OpenVMS
- B.Microsoft Windows Server 2003 EE
- C.Linux
- D.HP-UX

Answer: A
