Quality and Value for the HP0-J15 Exam

[Just4Exams Practice Exams](#) for HP Certification I HP0-J15 are written to the highest standards of technical accuracy, using only certified subject matter experts and published authors for development.

100% Guarantee to Pass Your HP0-J15 Exam

If you do not pass the Certification I HP0-J15 exam on your first attempt using our Just4Exams **HP0-J15 testing engine and pdf study guide**, we will give you a FULL REFUND of your purchasing fee.

Downloadable, Interactive HP0-J15 Testing engines and PDF Version

Our Exam Preparation Material provides you everything you will need to take a [Certification I certification](#) examination. Details are researched and produced by [HP Certification](#) Experts who are constantly using industry experience to produce precise, and logical.

Exam : HP HP0-J15

Title : HP StorageWorks MASE 2088 Delta Exam

1. How can you improve iSCSI host performance in a SAN?

- A. Upgrade to CommandView 7.
- B. Use NICs with TOE (TCP/IP Offload Engine).
- C. Enable NPIV (N_Port ID Virtualization) support.
- D. Disable SLP (Service Location Protocol) Service Agent.

Answer: B

2. Which SAN services are provided by the HP StorageWorks 400 Multi-Protocol Router (MPR)? (Select two.)

- A. ISL zoning

- B. FCIP tunneling
- C. IP-IP subnet routing
- D. iSCSI-FC translation
- E. FC-FC subnet routing

Answer: B, E

3. Where do you find the essential security elements in B-Series Fibre Channel switches running firmware v5.3.x?

- A. base Fabric OS
- B. Secure Fabric OS
- C. ISL Trunking manager
- D. switch port web interface

Answer: A

4. Under ideal operating conditions, what is the maximum supported, long-wave transceiver distance with B or C-Series Switches and 4Gb SFPs?

- A. 4km
- B. 10km
- C. 35km
- D. 100km

Answer: B

5. Brocade Secure Fabric OS is running on a fabric with four switches. If you are logged in to one of the switches and change the Admin password, which switch or switches will have the password changed?

- A. all the switches
- B. LDAP-enabled switches only
- C. only the switch you are logged in to
- D. only switches connected to the Ethernet

Answer: A

6. Which zoning enforcement types do Fibre Channel switches provide to protect against unauthorized access? (Select two.)

- A. access authorization
- B. port-zoning authentication
- C. RADIUS server authentication
- D. directory access authorization
- E. soft-plus zoning by login authentication

Answer: A, E

7. How many drives can be held by the M6412 drive shelf?

- A. 8
- B. 12
- C. 14
- D. 16

Answer: B

8. Which password authentication service can be used on Brocade switches in addition to the local switch database?

- A. NIS
- B. LDAP
- C. RADIUS
- D. Kerberos

Answer: C

9. Which tool helps you design a SAN that includes HP Blade servers?

- A. SANsurfer
- B. SAN Visibility
- C. SAN Designer
- D. Blade Designer

Answer: C

10. Which application can be used to set up network shares and provision iSCSI storage?

- A. Brocade Fabric Manager
- B. HP Data Protector Express

- C. HP CommandView EVA 7.0
- D. HP All-in-One Storage Manager

Answer: D

11. A customer wants to replicate data between two sites 200 km apart. Which HP SAN product would you recommend?

- A. MPX 100
- B. MPX 110
- C. MPR 100
- D. MPR 110

Answer: B

12. John, your customer, has a SAN built on B-Series switches. He calls you because he heard about a new feature which allows him to distribute administrator responsibilities among his staff. After research, what is your recommendation to John?

- A. Upgrade to Secure Fabric OS version 5.2.
- B. Purchase the Advanced Administration license.
- C. Implement Distributed Administration through Fabric Manager.
- D. Implement Admin Domains available since Fabric OS version 5.2.

Answer: D

13. Which tool would you use to quickly survey a SAN environment?

- A. HP SAN Surveyor
- B. HP SAN Designer
- C. HP CommandView
- D. HP SAN Visibility Tool

Answer: D

14. What is an advantage of iSCSI when compared to Fibre Channel?

- A. less protocol overhead
- B. no additional customer knowledge required
- C. easily provisioned through HP Storage Essentials SRM
- D. existing Ethernet infrastructure can be used to create a SAN

Answer: D

15. In B-Series virtual fabrics, which feature allows you to access devices in another virtual fabric?

- A. Inter-VSAN Routing
- B. Inter-Fabric Routing
- C. Cross-VSAN Routing
- D. Cross-Fabric Routing

Answer: B

16. Which SAN switch management tool, previously only available as an embedded version, is now separately available on CD?

- A. Emulex EZpilot
- B. McData HAFM
- C. Cisco Fabric Manager
- D. Brocade Fabric Watch

Answer: C

17. A customer is expanding a SAN to 400 switch ports, but has limited rack space. Which single Director switch model is recommended?

- A. Cisco MDS 9509 Director
- B. Cisco MDS 9513 Director
- C. HP StorageWorks 4/500 SAN Director
- D. HP StorageWorks 4/256 SAN Director

Answer: B

18. What are benefits of logical fabrics? (Select three.)

- A. port count reduction
- B. easier administration
- C. fabric service isolation
- D. increased performance
- E. fault propagation minimization

F. device sharing across logical fabrics

Answer: C, E, F

19. You are merging two fabrics and receive a fabric segmentation error that indicates the definition of a zone object in one fabric is different from its definition in the other fabric. What can cause this error?

- A. duplicate IDs
- B. zone type mismatch
- C. zone content mismatch
- D. zone configuration mismatch

Answer: C

20. A customer decides on HP c-Class BladeSystem as a corporate standard for servers. You must implement SAN integration of the blades into a very large fabric. The customer is concerned about the maximum switch count. Which interconnects will you recommend? (Select two.)

- A. QLogic 4Gb Fabric Switch
- B. Cisco MDS 9124e Fabric Switch
- C. Emulex 4Gb Advanced SAN Switch
- D. HP 4Gb Virtual Connect Fibre Channel Module
- E. Brocade 4Gb SAN Switch in Access Gateway mode

Answer: D, E
