

Exam : HP HP2-Z05

**Title : Selling the HP ProCurve
Portfolio**

Version : Demo

1. What has HP ProCurve designed in several of its high-speed switches to consolidate the function of many individual chips, including software, onto a single chip?

- A. VoIP
- B. ASIC
- C. IPS
- D. PoE

Answer: B

2. Which OSI Layer functionality enables a switch to route traffic?

- A. Network Layer (Layer 3)
- B. Physical Layer (Layer 1)
- C. Data Link Layer (Layer 2)
- D. Transport Layer (Layer 4)

Answer: A

3. What is a VLAN?

- A. a LAN that does not use wires and is enabled by wireless technology
- B. a large, geographically dispersed network consisting of two or more LANs
- C. a network that allows secure private data to be sent through a public network
- D. a logical division within a physical network that divides devices into separate broadcast domains

Answer: D

4. A company's private network is divided into several subnets. Which devices can allow traffic to flow between the subnets? (Select two.)

- A. router
- B. hub
- C. standalone access point
- D. Layer 2 switch
- E. Layer 3 switch

Answer: AE

5. Which devices are often located in the network core?

- A. workstations, laptops, and Layer 2 switches
- B. Layer 2 switches and wireless access points
- C. VoIP phones, multimedia devices, and printers
- D. high-end routers, routing switches, servers, and other mission critical resources

Answer: D

6. Which device provides dedicated bandwidth to every connected workstation but is only capable of forwarding data within the VLAN in which the traffic originates?

- A. router
- B. Layer 2 switch
- C. Layer 3 switch
- D. hub

Answer: B

7. Which network layer includes switches, wireless access points, and other devices to which users directly connect?

- A. core layer
- B. distribution layer
- C. access layer
- D. user layer

Answer: C

8. A customer is looking for an easy-to-use, low-cost modular alternative to the fixed-port switches. The switch needs to provide basic routing capabilities but not full intelligence- Which series of ProCurve Networking switches would offer the best alternative?

- A. 2610-PWR
- B. 5400zl
- C. 4200vl

D. 8212zl

Answer: C

9. Which HP ProCurve products share common accessories and software and therefore offer a more unified infrastructure?

A. 4200vl and 6600 Switch Series

B. 5400zl and 8200zl Switch Series

C. 3400cl and 3500yl Switch Series

D. 2810G and 2910al Switch Series

Answer: B

10. Which HP ProCurve switch is unmanaged and offers Gigabit ports?

A. 408

B. 1400-8G

C. 2124

D. 1810G-24

Answer: B
