Exam : EMC E20-670

Title : Networked Storage-CAS Installat'n/Troubleshooting  
Specialst

1. What does the purge function in DiskExtender accomplish?
  - A. Permanently deletes files from an extended drive
  - B. Reclaims space from deleted files
  - C. Removes file data from extended drives and leaves a file tag
  - D. Removes files from media

Answer: C

2. In the OSI model, which layer would a router be defined in?

- A. Data link
- B. Network
- C. Network interface
- D. Transport

Answer: B

3. How does an application locate objects on an EMC Centera?

- A. By the object's filename
- B. Keeps a copy of each C-Clip ID
- C. Keeps a copy of every BLOB's CA
- D. Searches each storage node sequentially

Answer: B

4. Your customer wants to automatically archive files from his EMC Celerra to EMC Centera. Which additional hardware is required?

- A. CUA using CIFS
- B. CUA using NFS
- C. None. The Celerra API is integrated with EMC Centera
- D. Rainfinity FMA

Answer: D

5. How many targets can DiskXtender for Windows manage?

- A. 2
- B. 4
- C. 8
- D. 16

Answer: B

6. In EmailXtender, what are container files?

- A. Archived mail header information
- B. Encrypted files holding mail by file size
- C. Files that are compressed at 10:1
- D. Monthly archived message files

Answer: D

7. Which port number is used to communicate to an SMTP server?

- A. 20 or 21
- B. 22
- C. 25
- D. 321

Answer: C

8. What allows EmailXtender to archive to EMC Centera?

- A. CUA
- B. DiskXtender for Windows
- C. EmailXtract
- D. Multiple Access Nodes

Answer: B

9. What is CAS?

- A. Archived storage accessed by filename
- B. High-performance transactional data storage
- C. Multiprotocol access storage
- D. Storage of fixed content data

Answer: D

10. What are the hardware components in a Gen4 cube?

- 1. Two internal Lan-48 port cube switches
- 2. Front-pluggable drive
- 3. Configuration with 8, 16, 24, or 32 nodes
- 4. Configuration with 4, 8, 12, or 16 nodes
- 5. Two internal Network Cube Switches (NCS)

- A. 1, 2, and 3
- B. 2, 3, and 5
- C. 1, 2, and 4
- D. 2, 4, and 5

Answer: D

11. Which layer of the OSI model does FTP use?

- A. Application
- B. Data link
- C. Network
- D. Transport

Answer: A

12. What is the minimum recommended number of nodes that can be configured with the access role in a Gen4 cube?

- A. 1
- B. 2
- C. 3
- D. 4

Answer: B

13. Which EMC Centera security model conforms to Securities and Exchange Commission regulations?

- A. Basic
- B. CE+
- C. CPP
- D. Governance Edition

Answer: B

14. Your customer wants to implement a disaster recovery solution involving a second EMC Centera at a remote location. How could this be easily accomplished using EMC Centera features?

- A. Back up the primary EMC Centera to tape and restore to EMC Centera at the remote site
- B. Configure bidirectional replication between both EMC Centeras
- C. Configure the application to write the same data to both EMC Centeras
- D. Configure virtual pools and access profiles on both EMC Centeras

Answer: B

15. How many leading bits are used to determine the class of an Internet address?

- A. 3
- B. 4
- C. 8
- D. 16

Answer: C

16. Which component of EMC DiskXtender for Windows is responsible for moving data to extended storage?

- A. Administrative
- B. EmailXtender
- C. File System Manager
- D. MediaStor

Answer: C

17. What are four layers in the ARPA (TCP/IP) architecture?

- A. Application, session, transport, and physical
- B. Application, transport, network, and network interface
- C. Presentation, network, data link, and network interface
- D. Presentation, transport, data link, and physical

Answer: B

18. Which two objects are stored as a single BLOB?

- A. Two documents containing the same data
- B. Two JPG pictures written at the same time
- C. Two MP3 songs of the same size
- D. Two X-Rays with the same filename

Answer: A

19. Which targets does EmailXtender natively archive to?

- A. EMC Centera
- B. Network-attached storage
- C. NTFS disks
- D. Optical libraries

Answer: C

20. Which network topology best describes how EMC Centera nodes are networked together?

- A. Bus
- B. Mesh
- C. Ring
- D. Star

Answer: D
